

Severn Valley Railway Engine House, Highley

Project Information

Severn Valley Railway is a major tourist attraction for Shropshire, as well as a significant agency responsible for the preservation of our steam travel history.

We were appointed to deliver their largest project to date, in the form of a museum to exhibit their steam locomotives.

Due to ground conditions, there is more engineering under the ground that is visible above it.

Title/ location – Severn Valley Railway Engine House, Highley Shropshire.

Client/ end user - Severn Valley Railway

Contractor – George Law

Completion date – 2008

Construction Cost - £6 Million
